ClinQure

Senior Clinical Research Associate

Grapevine, TX | 682 552-0265 | uche@clinqure.com

QUALIFICATIONS & SKILL SUMMARY

- *Industry Expertise:* 11 Years of experience in clinical research, drug/device development, and regulatory management within the biotech and medical device industries.
- *Clinical Research Expertise:* Proven success in managing clinical trials, data collection systems, and ensuring compliance with clinical protocols and regulatory standards.
- *Therapeutic Area Knowledge:* Specialized experience in endocrinology, dermatology, cardiology, gastroenterology, Infectious disease, pulmonology, oncology, immunology.
- *Project Leadership:* Leadership of cross-functional teams, managing clinical trial operations, site selection, regulatory submissions, and vendor management.
- *Process Improvement:* Skilled in streamlining clinical processes to ensure operational efficiency, adherence to Good Clinical Practice (GCP), and regulatory requirements.

WORK HISTORY & RESEARCH EXPERIENCE

HRCRS **2025 - present**

- Monitor cardiology and electrophysiology clinical trials to ensure compliance with study protocols, ICH-GCP, FDA regulations, and sponsor SOPs.
- Conduct on-site and remote monitoring visits, including source data verification (SDV) of ECGs, device data, adverse events, and primary endpoint documentation.
- Review informed consent forms, regulatory binders, and essential documents to maintain inspection readiness and data integrity.
- Collaborate with investigators, site staff, and sponsor teams to identify, document, and resolve protocol deviations, queries, and site performance risks.
- Prepare detailed monitoring visit reports, follow-up correspondence, and risk-based assessments to support timely and high-quality study execution.

ClinQure CRO **2025 - present**

- Lead and oversee monitoring activities for medical device and combination-product studies, ensuring compliance with IDE regulations, ICH-GCP, FDA requirements, and sponsor SOPs.
- Conduct risk-based on-site and remote monitoring, including advanced source data verification of device performance data, safety events, usability endpoints, and investigational product accountability.
- Provide strategic oversight of site performance, proactively identifying risks, trends, and protocol deviations while driving corrective and preventive actions (CAPAs).
- Serve as a primary liaison between sponsors, investigators, and cross-functional teams, supporting study start-up, regulatory submissions, and ongoing trial optimization.
- Prepare and review senior-level monitoring reports, study health dashboards, and sponsor-facing updates to support data quality, inspection readiness, and trial milestones.

Uchechukwu Omesiete

Senior Clinical Research Associate

Grapevine, TX | 682 552-0265 | uche@clinqure.com

Independent Clinical Research Associate 2024 - 2025

- Lead end-to-end site management activities including site qualification visits (SQVs), site initiation visits (SIVs), interim monitoring visits (IMVs), and close-out visits (COVs) in alignment with the monitoring plan risk-based monitoring (RBM) strategies.
- Serve as the primary liaison between the sponsor/CRO and investigative sites, fostering strong relationships and ensuring protocol compliance.
- Perform source data verification (SDV) and source data review (SDR) with a focus on Critical to Quality (CtQ)endpoints, ensuring data integrity and regulatory readiness.
- Monitor and track case report form (CRF) completion, manage query resolution, and ensure electronic data capture (EDC) accuracy.
- Oversee subject recruitment and retention strategies, addressing enrollment challenges proactively.

Advanced Clinical 2022 – 2024

- Performed and coordinated assigned aspects of the clinical monitoring process in accordance with GCPs and SOPs to assess the safety and efficacy of investigational products and/or medical devices
- Conducted site visits to determine protocol and regulatory compliance, and prepare required documentation
- Developed collaborative relationships with investigative sites, and study vendors Track enrollment status reports to ensure study sites stay on track to meet enrollment goals
- Tracked study-specific status reports to ensure all required information regarding site issues, deviations, and CRF status are kept current by the monitoring team
- Served as mentor/trainer for less experienced CRAs to assist with general and study-specific monitoring issues

Rho 2021 – 2022

- Contributed to the development of study tools and materials as well as documentation for clinical trials
- Provided mentoring, training, and co-monitoring of junior CRAs and other clinical team members
- Prepared and performed all onsite & off-site/remote site monitoring visit activities across multiple protocols, inclusive of all study visit types as needed (SQV, SIV, IMV and COV), according to Good Clinical Practice (GCP), Protocol, applicable regulations and Sponsor requirements under supervision of experienced staff
- Effectively documented observations in site visit reports and follow up letters within timelines required by Rho's procedural documents and the applicable clinical monitoring plan
- Prepared and maintain Investigator Site Files, and maintain site binders and documents of the Trial Master File

Docusign Envelope ID: 239A6D33-201C-46CE-A303-5A80506EDE2E

Uchechukwu Omesiete

Senior Clinical Research Associate

Grapevine, TX | 682 552-0265 | uche@clinqure.com

WuXi Clinical 2017 – 2021

- Audited and monitored investigator sites with a risk-based monitoring approach applies root cause analysis (RCA), critical thinking and problem-solving skills to identify site processes failure and corrective/preventive actions to bring the site into compliance and decrease risks.
- Ensured data accuracy through SDR, SDV and CRF review as applicable through on-site and remote monitoring activities.
- Assessed investigational product through physical inventory and records review.
- Documented observations in reports and letters in a timely manner using approved business writing standards.
- Escalated observed deficiencies and issues to clinical management expeditiously and follow all issues through to resolution.

Novo Nordisk 2014 – 2016

- Managed mutually beneficial relationships with external partners relevant to the planning and implementation of clinical trials and improvement/innovation projects
- Managed relationships with multiple internal stakeholders relevant to the planning and implementation of clinical trials and improvement/innovation
- Provided excellent customer service and builds strong working relationships with investigative sites and internal/external stakeholders
- Planned and ensured timely execution of processes required to meet greenlight activation
- Implemented proactive risk identification and mitigation planning for assigned clinical trial sites, leveraging Risk Based Quality Management principles and tools; executes activities relevant to all visit types (Site Selection, Site Initiation, Monitoring, and Closure) for assigned sites and clinical trials

AstraZeneca 2014 – 2014

- Assisted in coordination and administration of clinical studies from the start-up to execution and closeout.
- Collected, assisted in preparation, reviews and tracks documents for the application process.
- Assisted in timely submission of proper application/documents to EC/IRB and, where appropriate to Regulatory Authorities for the duration of the study.
- Liaised with Investigators, external service providers and CRAs during the document collection process to support effective delivery of a study and its documents.
- Served as local administrative main contact and works closely with the CRAs and/or the LSAD for the duration of the study.

SUMMARY OF CLINICAL RESEACH EXPERIENCE

Therapeutic Area	Device/Drug Indication	Phase/Class	Job Title
Oncology	Breast Cancer	Phase 2	CRA

Clinical Research Associate

Atlanta, GA | (404) 956 3393 | timperonce@clinqure.com

HTL-Strefa, Inc. **2019 - 2025**

- Serve as primary point of contact for patients and customers, addressing their inquiries, concerns, and issues promptly and professionally through various channels such as phone, email, chat, or social media.
- Investigate and address non-conformance issues, including complaints and product defects; Analyze root causes, implement corrective actions, and follow up to ensure effectiveness of solutions.
- Collaborated with cross-functional teams to ensure consistent adherence to quality standards across all products.
- Identify opportunities for process improvement and efficiency enhancement by analyzing data and feedback to recommend and implement corrective actions, process modifications, or training initiatives to enhance quality outcomes.
- Create and maintain comprehensive documentation, including standard operating procedures (SOPs), quality manuals, checklists, and templates.

Our Lady of The Lake Hospital **2018 – 2019**

- Utilized critical thinking skills to prioritize nursing interventions based on patients' acuity levels and individual needs.
- Conducted thorough patient assessments to identify changes in condition, promptly notifying physicians and initiating appropriate interventions when necessary.
- Administered medications safely according to established guidelines while closely monitoring for side effects or adverse reactions requiring intervention.
- Enhanced patient satisfaction by providing compassionate, holistic nursing care that addresses physical, emotional, and spiritual needs.
- Collaborated with interdisciplinary teams to develop comprehensive treatment plans for complex patients with multiple comorbidities.

Louisiana Healthcare Connections **2015 – 2018**

- Provide strong leadership and guidance to a team of customer service representatives, including hiring, training, coaching, and performance management.
- Monitor and evaluate team performance, analyze metrics, and implement strategies to achieve key performance indicators (KPIs) such as service level agreements (SLAs), customer satisfaction scores, and first call resolution rates.
- Develop and implement customer service strategies and initiatives to improve overall customer satisfaction and loyalty.
- Ensure consistent delivery of high-quality service by conducting regular quality assurance assessments, providing feedback, and implementing improvement plans as necessary.
- Handle escalated customer complaints and complex issues, ensuring prompt and satisfactory resolutions.

Travel Registered Nurse **2020 – 2025**

Doctors Community Hospital, Aya Healthcare *2025*
OU Medical Center, Premier Healthcare *2024 - 2025*
Bayside Medical Center, Host Healthcare *2024 – 2024*
BSA Hospital, Krucial Staffing *2020 – 2021*

- Preformed patient assessments while simultaneously providing interventions
- Assisted physicians with emergent bedside procedures that include but are not limited to central line, arterial line and chest tube placements, thoracentesis, tracheostomies

Docusign Envelope ID: 239A6D33-201C-46CE-A303-5A80506EDE2E

- Administered IV, oral, and injections of medications as prescribed, including titrating critical medications
- Assisted with efforts to minimize mortality through hemodynamic monitoring and support

Johnson Memorial Hospital **2024 – 2025**

- Provide overall on-site nursing and administrative support for the hospital including staffing concerns and supporting nursing staff
- Respond to all facility emergencies and codes
- Complete leadership rounding addressing patient and family concerns and complaints
- Audit clinical documentation and providing corrective actions in real time
- Partake in inpatient rounding on nursing units and collaborate with patient care team

Fulton County Jail **2023 – 2024**

- Coordinate, structure, implement and guide the delivery of the nursing service program within the facility
- Assist with daily triage/sick call, minor medical/surgical procedures and patient assessments
- Conduct daily clinical and segregation rounds
- Observe and review documentation, orders and patient care plans
- Respond to and initiate care for medical emergencies within the facility

Northeast Georgia Medical Center **2021 – 2023**

- Planned and coordinated day-to-day administrative and operational functioning of a 12 bed MICU unit, directing admissions, discharges, and general patient flow.
- Assign patient assignments based on patient acuity and staff experience
- Support the patient's healthcare team as an advocate for the patient and families
- Audit patient charts in real time, ensuring accuracy and completion
- Maintain staffing productivity, budget targets and resources

Medical City Arlington **2019 – 2020**

- Pharmacological and non-pharmacological management and treatment of various disorders and diseases processes
- Continuous communication with physicians to ensure patient current treatment plans with hemodynamically unstable patients.
- Adjust therapies based on physician orders with Rotoprone, Hypothermia, External ventricular drains and/or Continuous renal replacement therapy
- Treat patients with chronic and acute health problems such as MI, Covid-19, arrhythmias, COPD, sepsis, pneumonia, DKA, etc.

Docusign Envelope ID: 239A6D33-201C-46CE-A303-5A80506EDE2E

Richard Cummings, RN

Clinical Research Associate

Lavon, Texas | (413) 241 9036 | richard@clinqure.com

Wal-Mart Pharmacy **2012 – 2019**

- Calculate dosages and dispense medication prescriptions for approval by pharmacist
- Access prescription information including patient and prescriber data, drug selection, prescription interpretation and insurance billing.
- Research and resolve dosage conflicts, potentially harmful drug interactions, insurance issues and other matters to ensure patient safety/wellness.

PROFESSIONAL TRAINING & EDUCATION

Grant J. Knass

Clinical Research Associate

Loveland, CO | 317-607-9303 | grant@clinqure.com

Vanguard Clinical, Inc. **2024 - 2025**

- FSP-based Clinical Supply Manager for a Phase III, multi-study program utilizing a Schedule II investigational product
- Facilitated 10+ weekly shipments, returns, and reconciliations through daily communication with vendor and clinical sites
- Maintained three-part DEA documentation for 75+ clinical sites to ensure continued compliance

Sunterra **2024 – 2024**

- Led management of medical device vendor to develop an accurate scope of work and ensure timely delivery of start-up documents
- Additional Phase I start-up activities included the qualification of four vendors and the clinical site, protocol/Master ICF development, and the creation of six initial study plan drafts

AlloVir **2022 – 2023**

- Managed 10 clinical sites from qualification through activation, including regulatory document reviews, IP releases, and recruitment plan reviews
- Reviewed and acted on monitoring visit reports, reconciled protocol deviations, and assisted Data Management with query resolution

Imara, Inc. **2021 – 2022**

- Functioned as a dependable CTM counterpart on a team of three by demonstrating subject-matter expertise and leading meetings/activities for CTM as needed
- Assisted in managing CRO responsibilities – vendor selection, study plan development, and TMF build.

EQRx, Inc. **2020 – 2021**

- Supported the planning and initiation of an Expanded Access Program by managing CRO-led start-up activities including budget/timeline development and initial TMF build.

Medpace, Inc. **2019 – 2020**

- Excelled with a workload of 6-10 concurrent studies under the direct supervision of multiple CTMs
- Valued team member on a Phase III oncology trial that received FDA approval; key responsibilities included essential document collection in start-up, daily maintenance and quality assurance of site-level regulatory files, and participation in site audits and inspection readiness activities
- Oversaw two entry-level project coordinators by conducting weekly progress meetings and effectively distributing shared tasks

Covance **2017 – 2019**

- Served as a central laboratory liaison to manage samples and resolve queries for 100+ clinical sites.

Docusign Envelope ID: 239A6D33-201C-46CE-A303-5A80506EDE2E
